

Choose the straight or angled end to achieve versatility during access.

**BiWire<sup>®</sup>**  
NITINOL CORE WIRE GUIDE

**High lubricity**

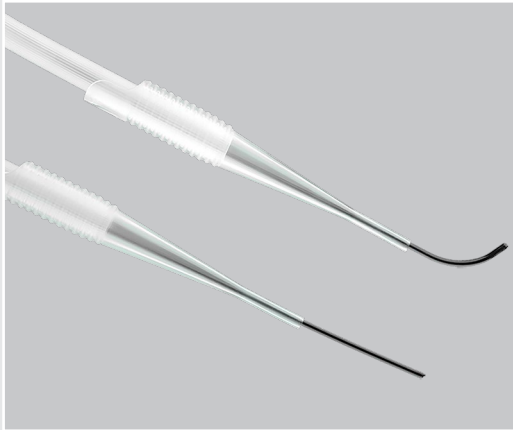

The wire guide has a hydrophilic coating for advancement.

**High kink resistance**

The nitinol core allows increased deflection without kinking.

**High manoeuvrability**

The wire guide's 1:1 torque control allows precise navigation through the anatomy.

## BiWire®

NITINOL CORE WIRE GUIDE

The BiWire® wire guide is designed to provide two options for ureteral access. With flexible tips at both ends, the BiWire wire guide has the value of being straight at one end and angled at the other. As a result, either end of the wire guide can be used to navigate tortuous ureters. Once in position, the BiWire wire guide may be used to facilitate instrument exchange or placement. The BiWire wire guide is two wire guides in one, adding value by reducing your inventory needs.

BiWire wire guides are sold in a box of 5.

Order Number	Reference Part Number	Diameter inch	Length cm	Tip Configuration	Flexible Tip Length cm
<b>Standard-Body Wire Guides</b>					
G46142	BW-025150	.025	150	straight and angled	3
G46141	BW-035150	.035	150	straight and angled	3
G46140	BW-038150	.038	150	straight and angled	3
<b>Stiff-Body Wire Guides</b>					
G46139	BWS-025150	.025	150	straight and angled	3
G46138	BWS-035150	.035	150	straight and angled	3
G46137	BWS-038150	.038	150	straight and angled	3
