

Get glowing results.

Glo-Tip II[®]

DOUBLE LUMEN ERCP CATHETER

The Glo-Tip II catheter balances two significant factors in cannulating procedures – access and visualization. The catheter's DomeTip[®] permits smooth, easy cannulation and a radiopaque band inside the wire lumen emits a distinctive "glow" under fluoroscopy. And, for convenience, its double lumen design permits contrast injection through a dedicated lumen while the catheter is placed over a wire guide. The Glo-Tip II: part of Cook Medical's full line of innovative endoscopic accessories designed to meet your patients' needs.

Glo-Tip II®

DOUBLE LUMEN ERCP CATHETER

This device is used for endoscopic cannulation of the ductal system.

Supplied sterile and is disposable – intended for single use only.

- DomeTip® designed with anatomy in mind for smooth, easy access
- Radiopaque tip provides excellent fluoroscopic visualization
- Double lumen design permits contrast injection through a dedicated lumen while catheter is placed over a wire guide
- Mark V System® – with endoscopic markers at 5, 10, and 15 cm from tip to visualize depth of insertion

Order Number	Reference Part Number	Catheter Size Fr	Catheter Length cm	Tip	Remarks	Color Connection
G22226	GT-2-T	6	200	Dometip	Standard	Purple
G24694	GT-2-T-RB	6	200	Dometip	Radiopaque Bands	Purple
G24506	GT-2-T-ANG	6	200	Dometip	Angled	Purple
