

From cytology to histology:
Continuing to increase
your predictive values.

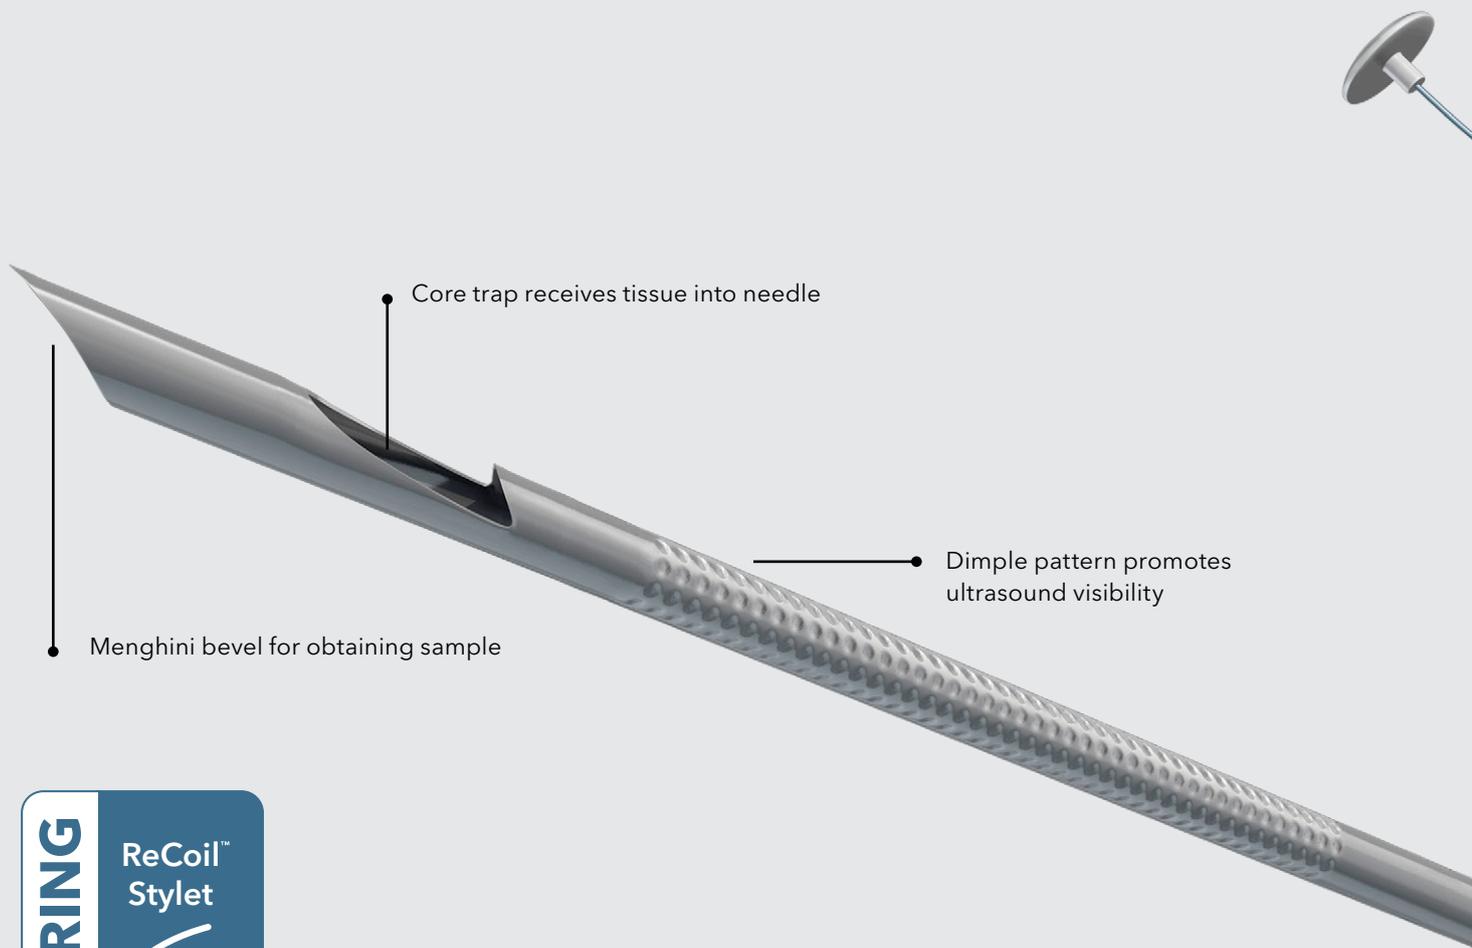

EchoTip ProCore®
HD ULTRASOUND BIOPSY NEEDLE

Get to the core issue throughout the entire GI tract.

EchoTip ProCore allows for collection of histology with cytology while providing access to the entire GI tract, where you can target smaller lesions and increase your yields, all while decreasing your needle passes.¹

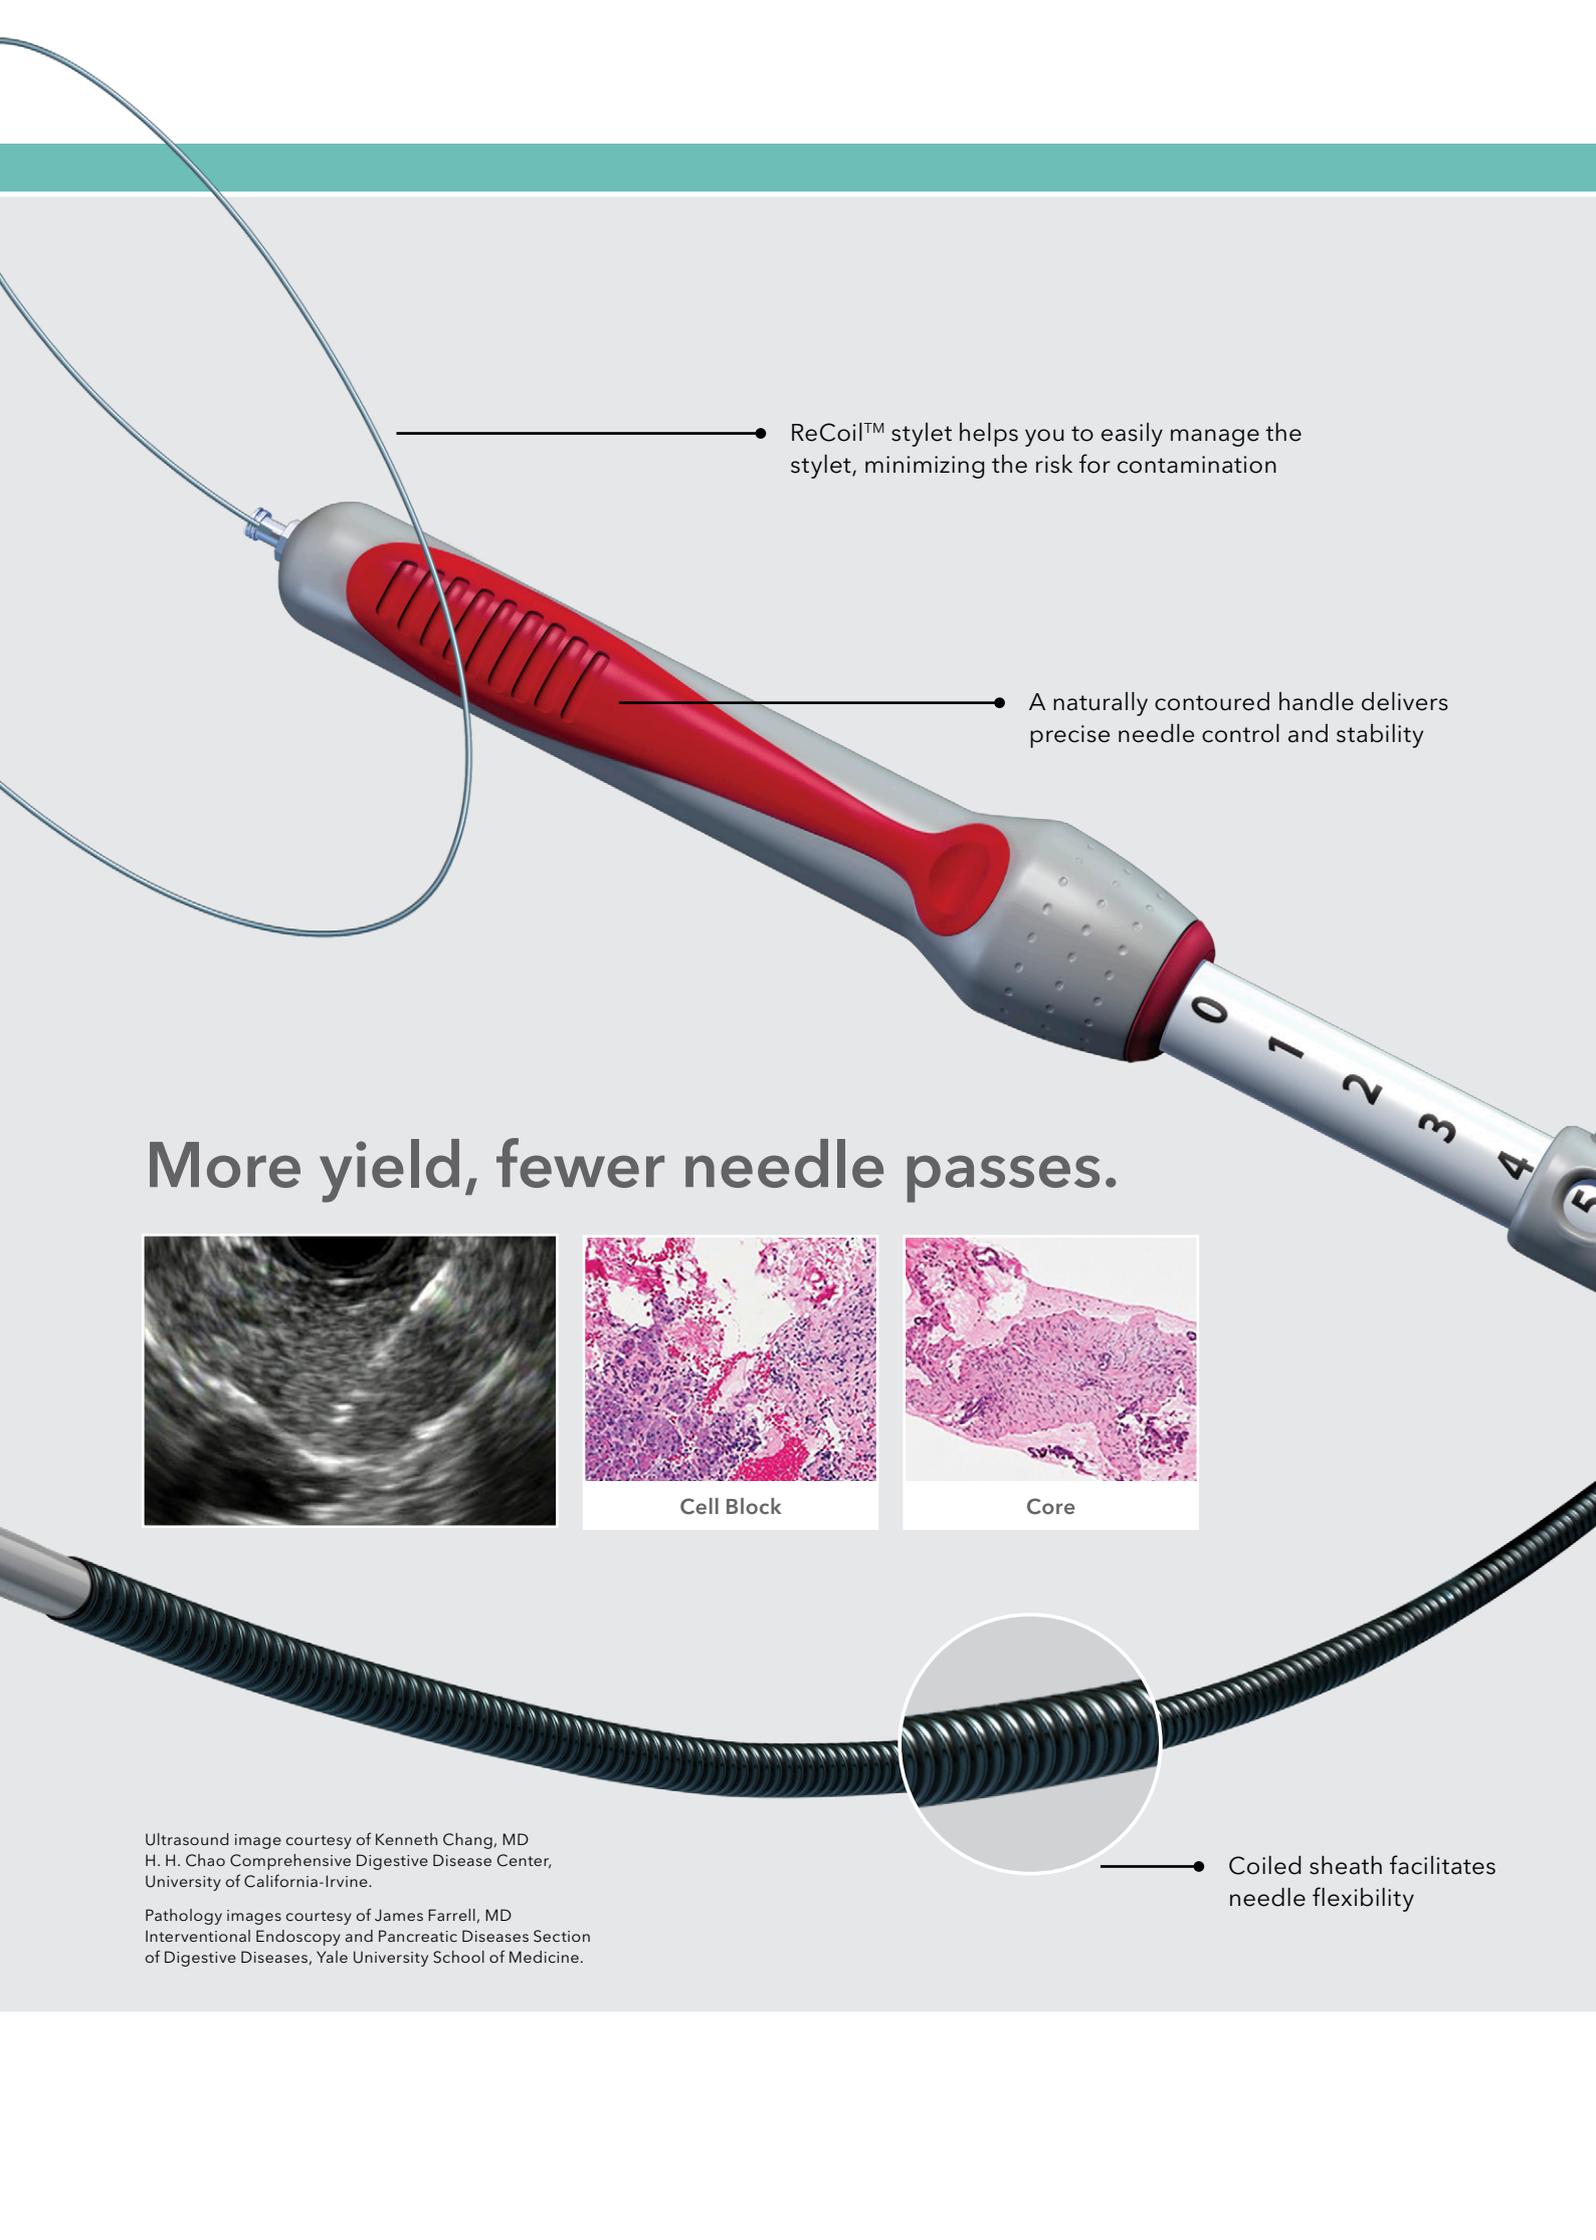

Core trap receives tissue into needle

Menghini bevel for obtaining sample

Dimple pattern promotes ultrasound visibility

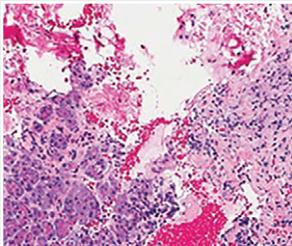

¹Kamata K, Kitano M et al. Histologic diagnosis of pancreatic masses using 25-gauge endoscopic ultrasound needles with and without a core trap: a multicenter randomized trial Endoscopy 2016; Volume 48(07)

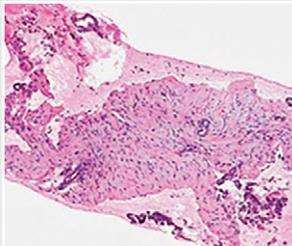

ReCoil™ stylet helps you to easily manage the stylet, minimizing the risk for contamination

A naturally contoured handle delivers precise needle control and stability

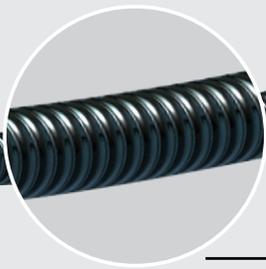

More yield, fewer needle passes.

Cell Block

Core

Coiled sheath facilitates needle flexibility

Interventional Endoscopy and Pancreatic Diseases Section
of Digestive Diseases, Yale University School of Medicine.

"Cytology is not enough in the diagnosis and treatment of all lesions. You need sufficient quality of material to correctly characterise tumours and conditions."

**Marc Giovannini, MD, PhD, Endoscopic Unit,
Paoli-Calmettes Institute Marseille, France**

• Safety lock ring easily slides and locks at the desired extension

• Integrated sheath adjuster offers compatibility with a full range of echoendoscopes

• Metal Luer lock for secure anchoring to the echoendoscope

Product Image features EchoTip ProCore 20ga.

Leading innovation in EUS since 1998.

Over the years, you've told us what matters to you and we've listened. Incorporating extensive feedback provided by clinicians, we offer you our latest developments in needle flexibility and sampling capability, tailored to you and your pathologist's needs and heavily supported by published clinical data.

22 gauge needle

25 gauge needle

Product Specifications

Used with an ultrasound endoscope for fine needle biopsy (FNB) of submucosal lesions, mediastinal masses, lymph nodes and intraperitoneal masses within or adjacent to the gastrointestinal tract.

Supplied sterile and is disposable - intended for single use only.

| Order Number | Reference Part Number | Needle Size gauge | Sheath Size Fr | Adjustable Needle Extension cm | Stylet Tip | Minimum Accessory Channel mm |
|--------------|-----------------------|-------------------|----------------|--------------------------------|-------------------|------------------------------|
| G53585 | ECHO-HD-19-C | 19 | 4.8 | 0-8 | recessed ball tip | 2.8 |
| G34785 | ECHO-HD-3-20-C* | 20 | 7.95 | 0-8 | recessed ball tip | 3.7 |
| G55736 | ECHO-HD-22-C | 22 | 5.2 | 0-8 | recessed ball tip | 2.8 |
| G55738 | ECHO-HD-25-C | 25 | 5.2 | 0-8 | beveled | 2.8 |

Some products or part numbers may not be available in all markets. Contact your local Cook representative or Customer Service for details.

*ReCoil stylet is only available on EchoTip ProCore 20ga.
