

Address transjugular procedures confidently with an array of specialised products.

PRODUCTS FOR TRANSJUGULAR
LIVER ACCESS AND BIOPSY

Cook Medical Transjugular Liver or Renal Access and Biopsy

For transjugular procedures, you need the flexibility to reach any objective, and the precision to make your access count.

Cook Medical's specialised sets are purposefully designed for the specific patient needs and physician preferences associated with transjugular liver or renal procedures. The controlled maneuverability of Flexor® introducer sheaths, the exacting precision of Quick-Core® biopsy needles, and a full range of accessory products work together to help you meet any objective.

Transjugular Liver Access

**TRANSJUGULAR
INTRAHEPATIC SET**

- Includes all components necessary for each step of the procedure for intrahepatic vascular access.
- Separate wire guides are included to meet specific procedural needs.
- Patented Flexor® sheath design provides maximum flexibility without kinking or compression.
- Radiopaque band on introducer increases visibility for positioning accuracy.

Order Number	Reference Part Number	Introducer Fr/Length cm	Trocar Stylet Diameter inch	Trocar Stylet Length cm	Stiffening Cannula gage	Stiffening Cannula Length cm
G19708	TIPSS-100	10/40	.038	62.5	14	51.5

Determine the maximum diameter of the instrument or catheter to be introduced to ensure its passage through the sheath.
Some products or part numbers may not be available in all markets. Contact your local Cook representative or Customer Service for details.

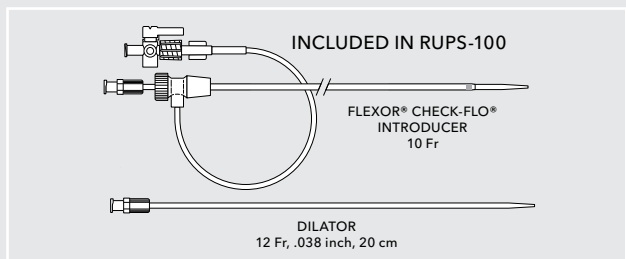

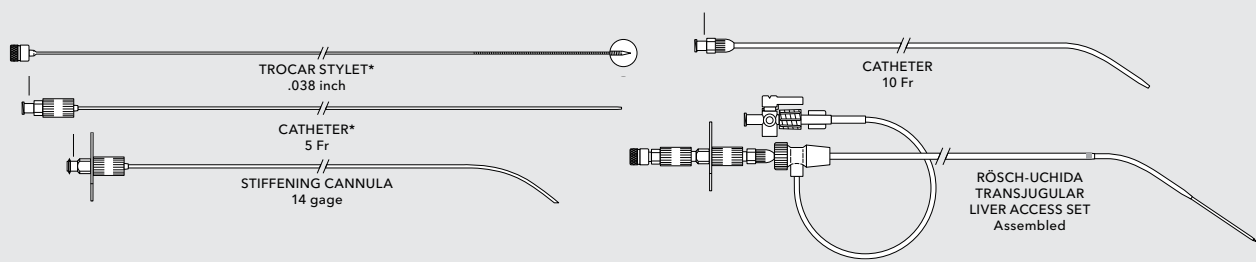

Rösch-Uchida

TRANSJUGULAR LIVER ACCESS SET

- Stiffening cannula provides added support during puncture.
- Trocar stylet facilitates vascular access within the liver for subsequent wire guide, catheter, and sheath placement.
- Patented Flexor® sheath design provides maximum flexibility without kinking or compression.
- Radiopaque band on introducer increases visibility for positioning accuracy.

Order Number	Reference Part Number	Introducer Fr/Length cm	Trocar Stylet Diameter inch	Trocar Stylet Length cm	Stiffening Cannula gage	Stiffening Cannula Length cm
Rösch-Uchida Transjugular Liver Access Set						
G06929	RUPS-100	10/40	.038	62.5	14	51.5
Rösch-Uchida Stylet Catheter Set*						
G28023	NST-38-62.5-RUPS	--	.038	62.5	--	--

*This set includes stylet and catheter only.
Determine the maximum diameter of the instrument or catheter to be introduced to ensure its passage through the sheath.
Some products or part numbers may not be available in all markets. Contact your local Cook representative or Customer Service for details.

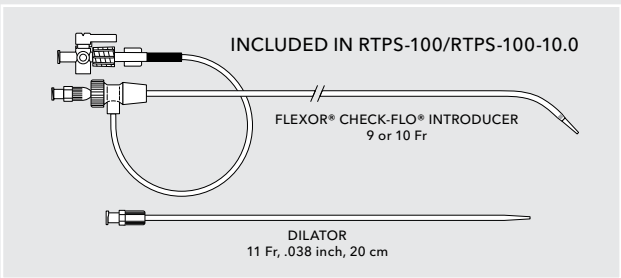

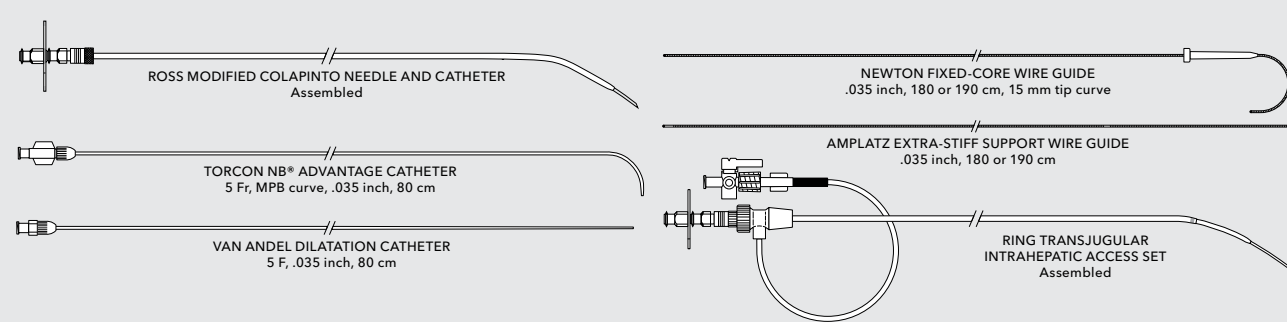

Ring

TRANSJUGULAR INTRAHEPATIC ACCESS SET

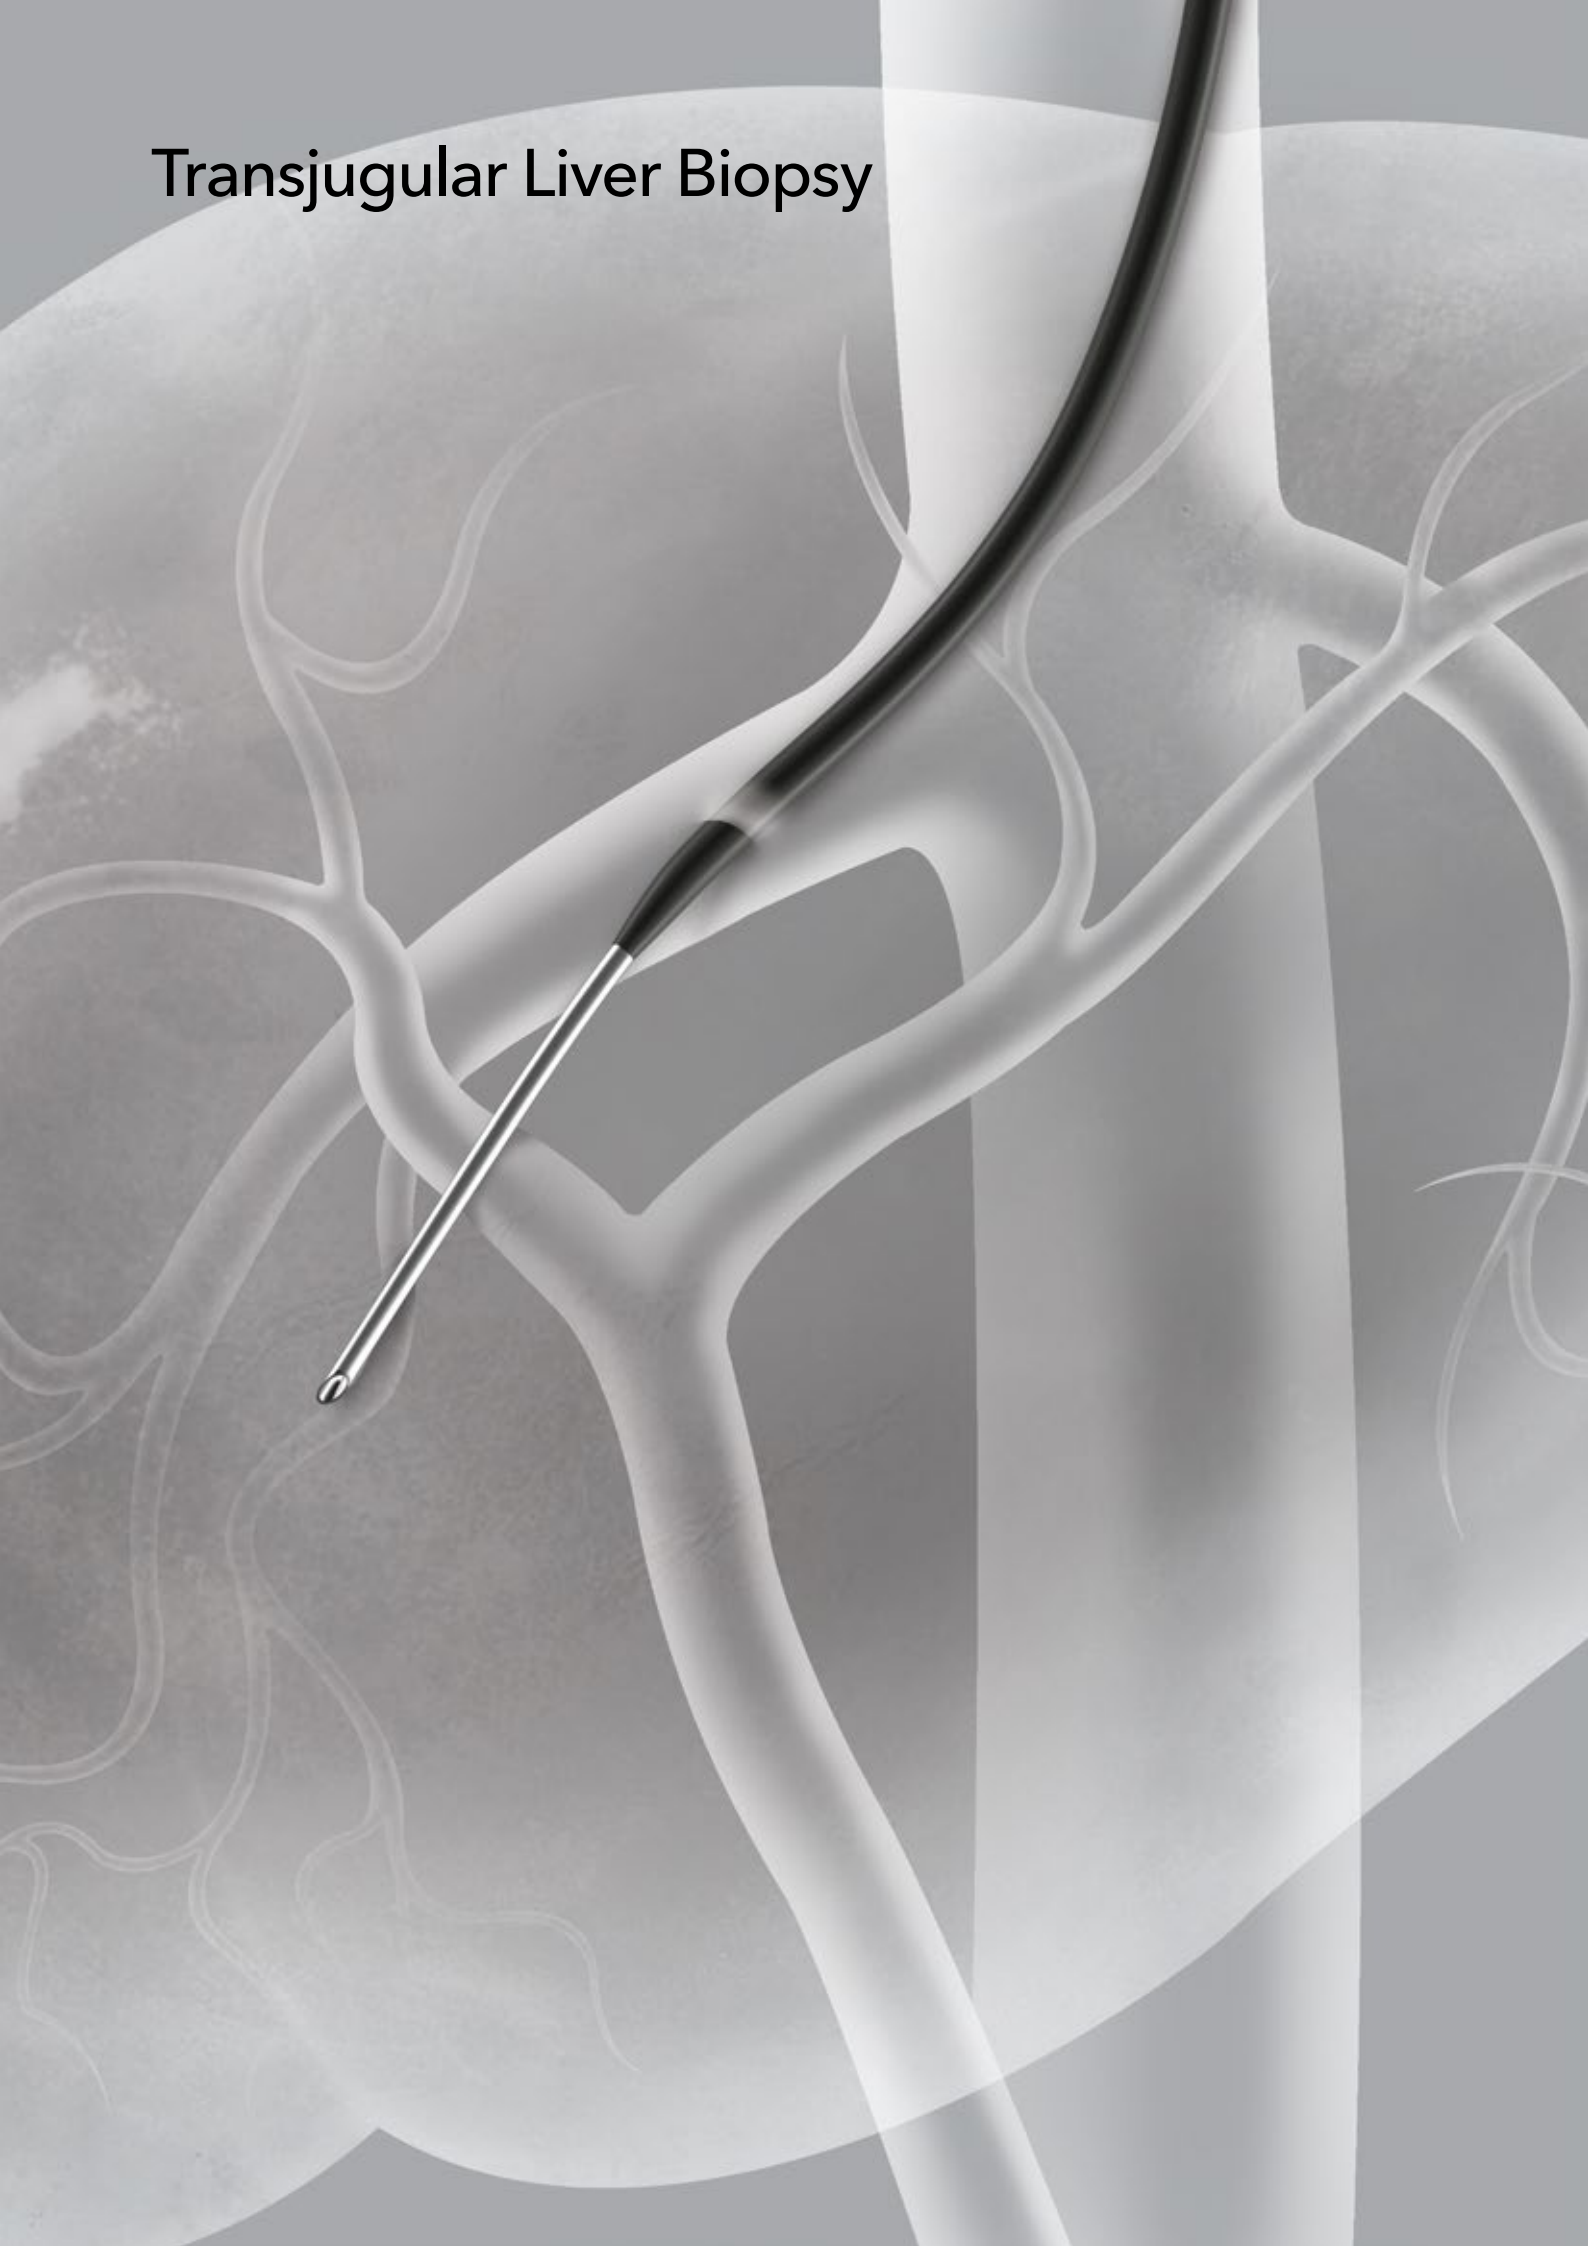

- Ross Modified Colapinto Needle facilitates intrahepatic vascular access within the liver for subsequent wire guide, catheter, and sheath placement.
- Patented Flexor® sheath design provides maximum flexibility without kinking or compression.
- Radiopaque band on introducer increases visibility for precise positioning.
- Availability in both 9 and 10 Fr sizes allows physician to address a variety of patient needs.

Order Number	Reference Part Number	Needle gage	Needle Length cm	Introducer Fr	Introducer Length cm
Ring Transjugular Intrahepatic Access Set					
G06541	RTPS-100	16	50.5	9	38.5
G29769	RTPS-100-10.0	16	50.5	10	38.5

Determine the maximum diameter of the instrument or catheter to be introduced to ensure its passage through the sheath.
Some products or part numbers may not be available in all markets. Contact your local Cook representative or Customer Service for details.

Transjugular Liver Biopsy

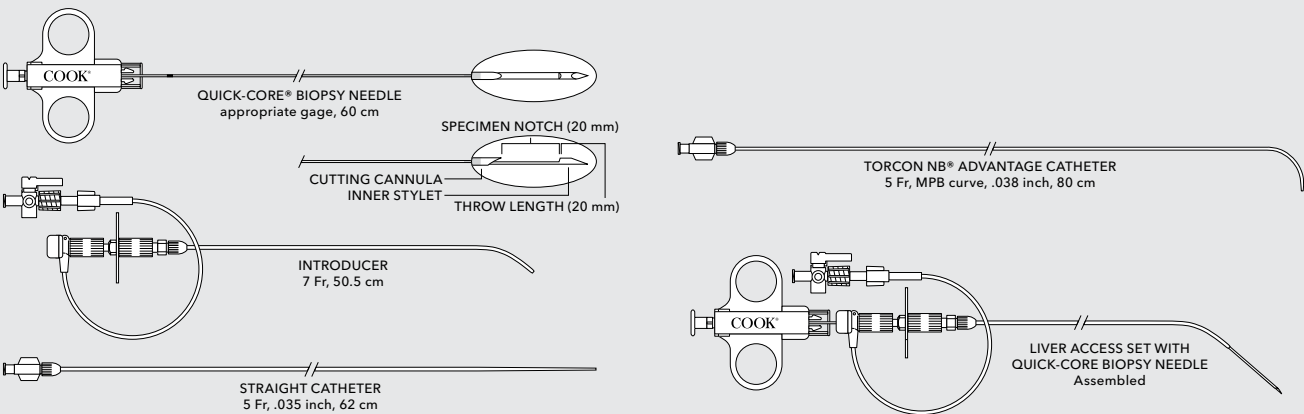

LABS

LIVER ACCESS AND BIOPSY SET

- Includes a complementary set of components for transjugular liver access and tissue biopsy.
- Precurved catheter and cannula ideal for hepatic vein access.
- Single-throw mechanical needle passes easily through duct walls into tissue.
- Multipurpose catheter increases visibility.
- Check-Flo® Performer adapter with sidearm tubing prevents blood reflux and allows the injection of contrast media or the aspiration of blood to confirm positioning.

Order Number	Reference Part Number	Needle gage/Length cm	Throw Length mm	Sheath Fr
Liver Access and Biopsy Set				
G50779	LABS-100-J	18/60	20	7
G50780	LABS-200-J	19/60	20	7
Liver Access and Biopsy Needle				
G08285	RMT-14XT-50.5-LABS-100	18/60	20	7
Quick-Core Biopsy Needle				
G28288	QC-19-60.0-20T	19/60	20	--

Determine the maximum diameter of the instrument or catheter to be introduced to ensure its passage through the sheath.
Some products or part numbers may not be available in all markets. Contact your local Cook representative or Customer Service for details.

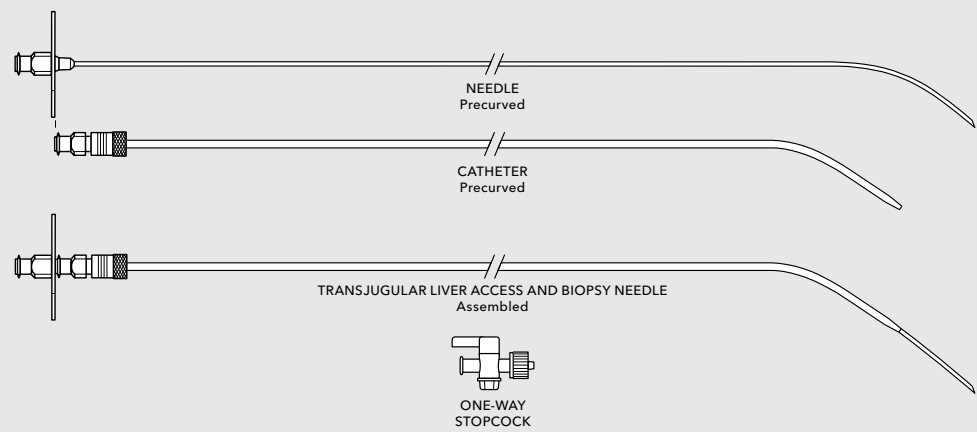

**TRANSJUGULAR
LIVER ACCESS AND BIOPSY NEEDLE**

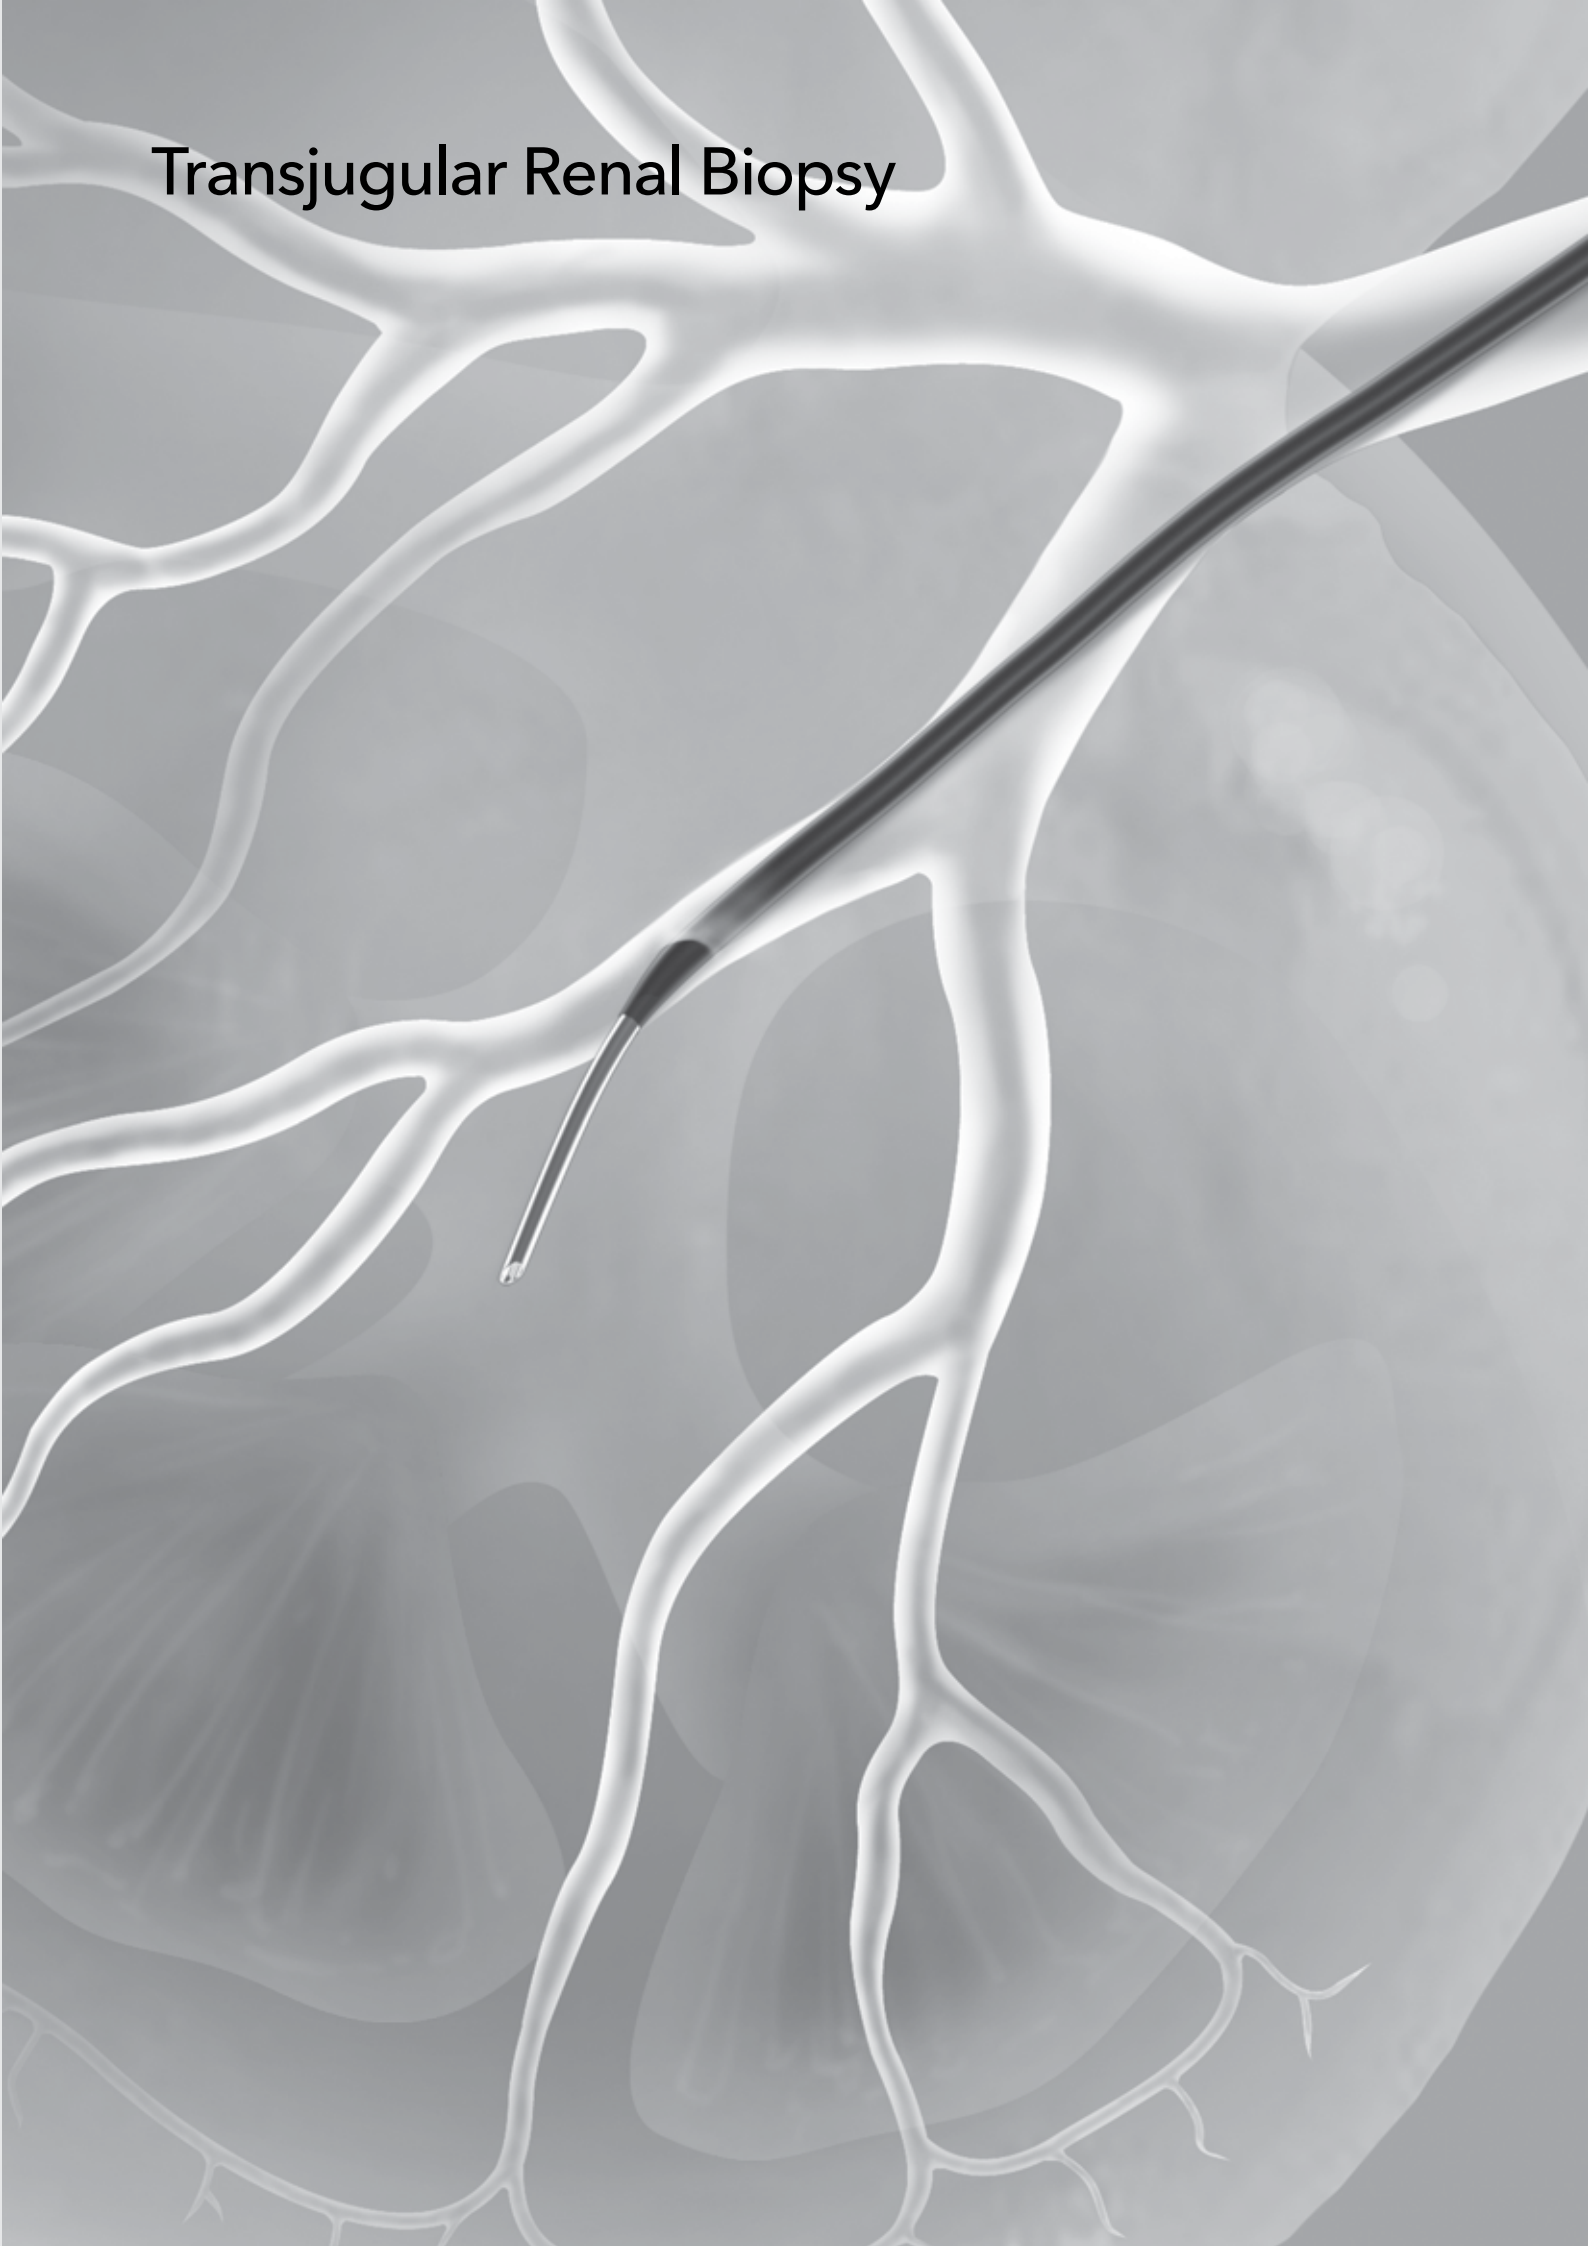

- Available in 15 and 16 gage sizes to suit physician preference.
- Precurved catheter and cannula are ideal for hepatic vein access.

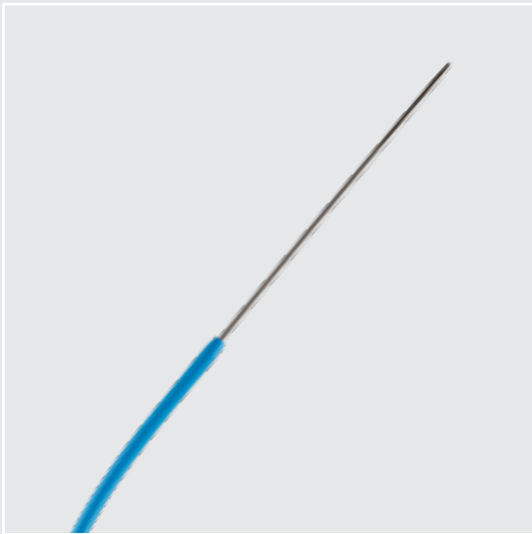

Order Number	Reference Part Number	Catheter Fr	Catheter Length cm	Needle gage	Needle Length cm
G20548	RMT-15-51.0-TJL	9	45	15	51
G20521	RMT-16-51.0-TJL	9	45	16	51

Determine the maximum diameter of the instrument or catheter to be introduced to ensure its passage through the sheath.
Some products or part numbers may not be available in all markets. Contact your local Cook representative or Customer Service for details.

Transjugular Renal Biopsy

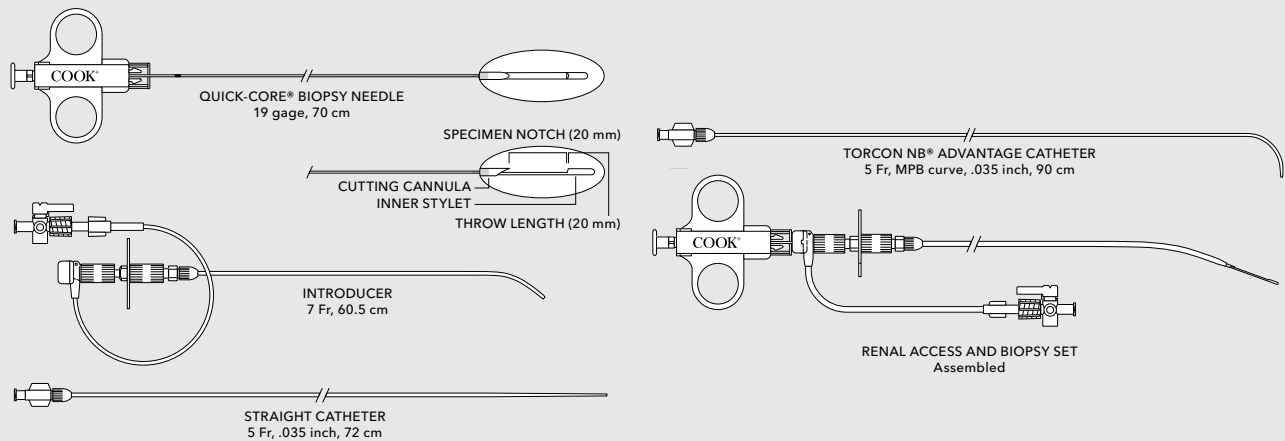

RABS

RENAL ACCESS AND BIOPSY SET

- Precurved catheter and cannula are ideal for renal access.
- Single-throw mechanical needle passes easily through duct walls into tissue with an atraumatic needle tip.
- Check-Flo® Performer adapter with sidearm tubing prevents blood reflux and allows the injection of contrast media or the aspiration of blood to confirm positioning.

Order Number	Reference Part Number	Needle gage/Length cm	Throw Length mm	Sheath Fr
G13050	RABS-100	19/70	20	7

Determine the maximum diameter of the instrument or catheter to be introduced to ensure its passage through the sheath.
Some products or part numbers may not be available in all markets. Contact your local Cook representative or Customer Service for details.

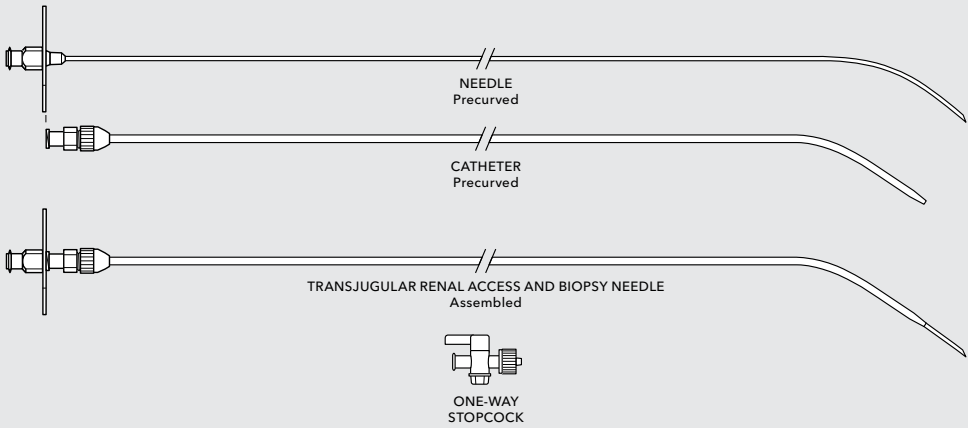

**TRANSJUGULAR
RENAL ACCESS AND BIOPSY NEEDLE**

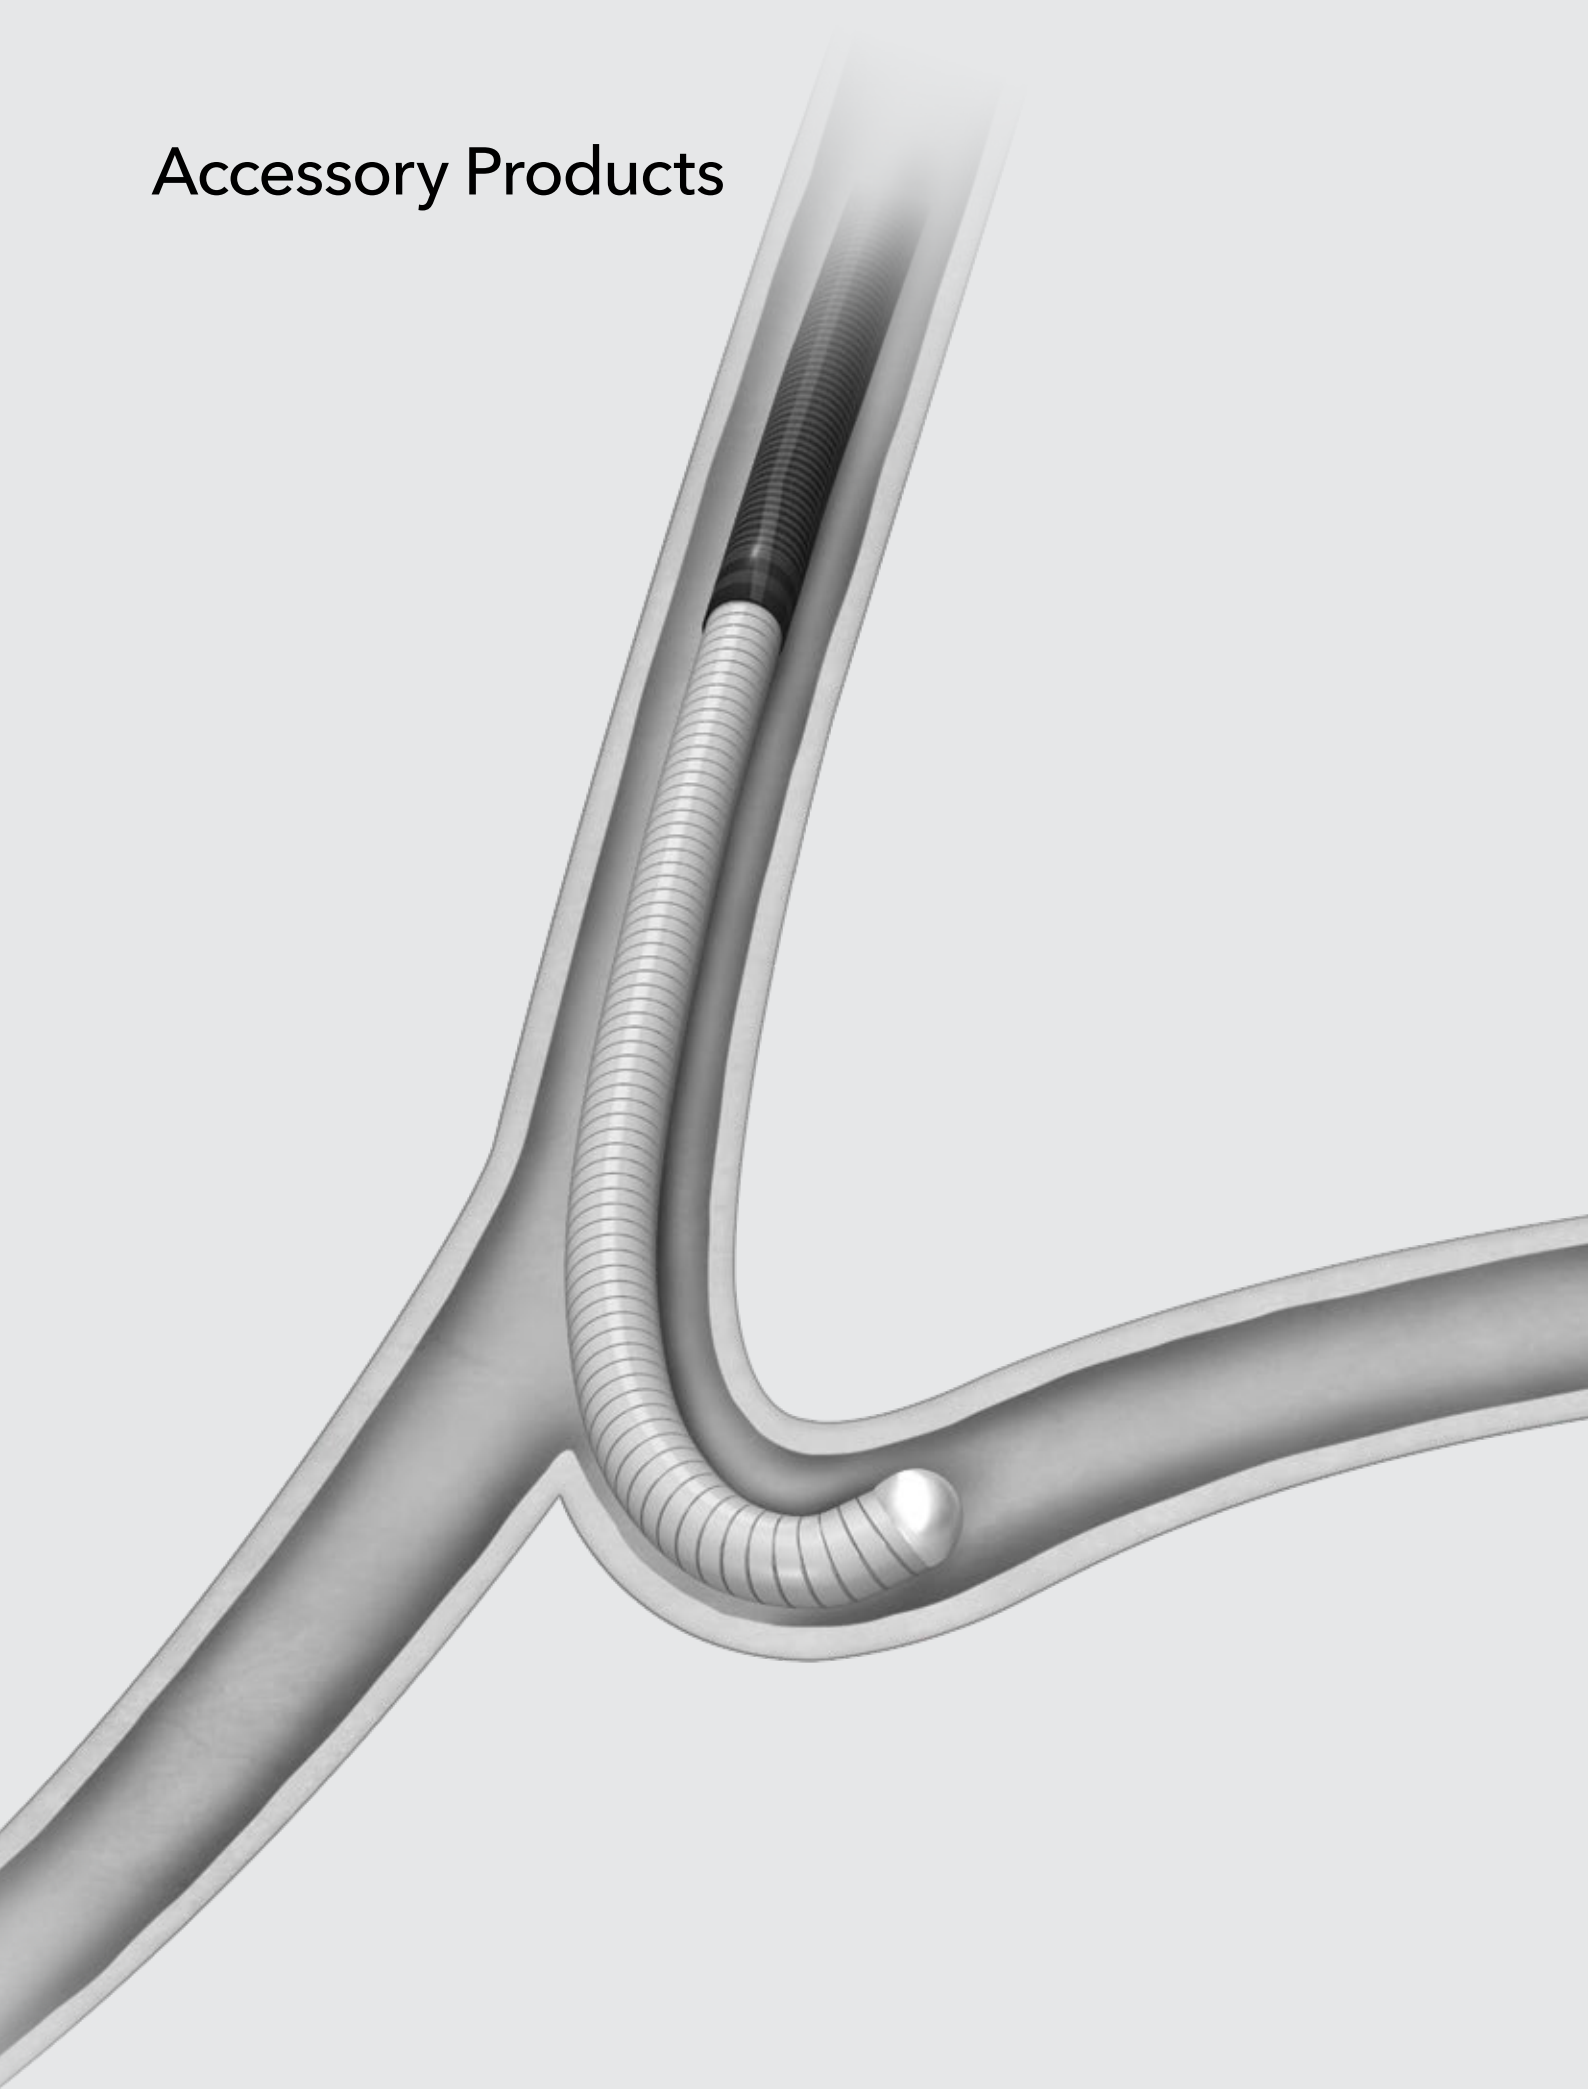

- Precurved catheter and cannula ease renal vein access.
- A sharp bevel is specifically designed for renal biopsy and helps reduce tissue trauma.

Order Number	Reference Part Number	Catheter Fr	Catheter Length cm	Needle gage	Needle Length cm
G20547	RMT-15-64.0-TJR	9	59	15	64

Determine the maximum diameter of the instrument or catheter to be introduced to ensure its passage through the sheath.
Some products or part numbers may not be available in all markets. Contact your local Cook representative or Customer Service for details.
