## ITEMS TO BE REPLACED

Vendor	Product Name	Product Description

**During what procedures is this product used?** Diagnostic angiography, other diagnostic procedures, and intervention

**Disclaimer:** The entity billing Medicare and/or third party payers is solely responsible for the accuracy of the codes assigned to the services and items in the medical record. When making coding decisions, we encourage you to seek input from the AMA, the AHA, relevant medical societies, the CMS, your local Medicare Administrative Contractor and other health plans to which you submit claims. Cook does not promote the off-label use of its devices.

**What advanced features does this product offer over current methods?**  
Cook's Amplatz wire guide portfolio offers a broader range of options compared to many competitors, allowing clinicians to select the ideal wire for various anatomical and procedural needs. This depth in portfolio ensures we can support a wider range of procedures with precision and consistency. In addition, we are generally more cost competitive, which allows facilities to optimize both clinical outcomes and budget efficiency without compromising quality.

**What supply chain advantages does this product offer over current methods?**  
Cook's Amplatz wire guide portfolio offers several key supply chain advantages over current methods. We've secured dual-source supply to ensure consistent and reliable delivery, minimizing the risk of backorders or disruptions. In addition, our broad portfolio allows customers to consolidate sourcing across multiple wire guide needs, simplifying procurement and inventory management. Combined with our generally more cost-competitive pricing, we provide both operational and economic value to our customers.
