Amplatz

SUPPORT WIRE GUIDE

Versatility

Meet the vascular needs of your patient with our purpose-built portfolio offering a range of stiffness options, multiple lengths, and multiple tip options.

Atraumatic tip

Navigate tortuous anatomy with less vessel trauma. Our atraumatic tip design, with a gradual transition from the stiff shaft to the flexible tip, allows easy navigation.

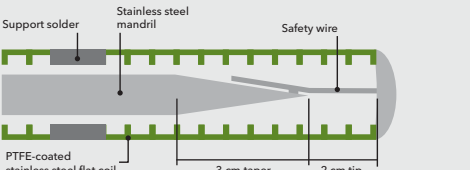

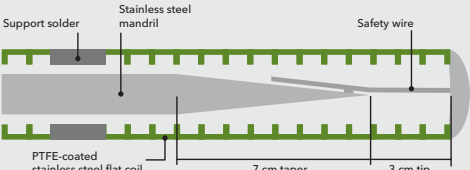

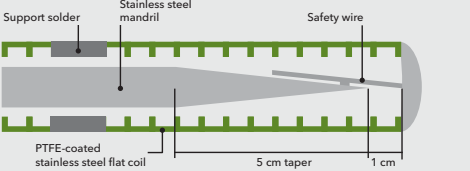

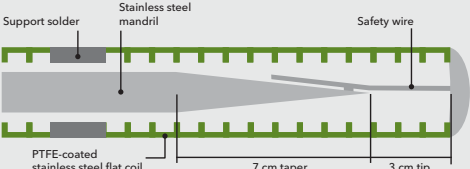

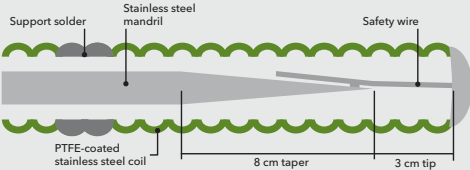

Supportive nature of the wire guide

Maximize stability with a durable, reliable track that lets treatment devices glide smoothly. This dependable platform provides the control you need for precise device passage.
