SialoCath™

SALIVARY DUCT CATHETER

Scope-free irrigation

The catheter allows for irrigation without the use of a scope as a first-line, in-office treatment approach.

Atraumatic design

The soft tip, flexible catheter provides a gentle treatment option for both in-office and facility-based surgical procedures.

Salivary use

The catheter is specifically indicated for salivary duct irrigation.

SialoCath™

SALIVARY DUCT CATHETER

Used to aid in the removal and treatment of salivary duct stones and other duct conditions through flushing and/or fluid irrigation of the salivary ducts.

This flexible, single-lumen catheter can be inserted into the salivary duct either over a wire guide or through an appropriately sized introducer sheath.
