

Held to a higher standard

Ascend™
SINGLE-USE FLEXIBLE URETEROSCOPE

Reach for the single-use solution that offers an enhanced experience *from grip to tip.*

ERGONOMICS

Sturdy yet lightweight, the scope is designed with an ergonomic profile to accommodate hands of all sizes.

DEFLECTION

With the flip of a switch, lock the deflection to set your sights on the target.

(Available in standard and reverse configurations.)

275° up/down deflection

Shaft: 8.6 Fr
outer diameter

ILLUMINATION

The distal tip features a unique transparent design, lit with a dual-LED, to illuminate the surgical site and surrounding areas.

IMAGE PROCESSOR

Get enhanced images using the processor's proprietary algorithms, and customize your settings to fine-tune color, saturation, brightness, contrast and more.

The Ascend Single-Use Flexible Ureteroscope

takes vision versatility to new heights. It's there when and where you need it as your everyday scope, as a backup for when your reusable scope is unavailable, or as your go-to option for those difficult procedures.

Avoid the pain points associated with reusable scopes:

- Declining functionality (scope fatigue)
- Downtime due to reprocessing
- Cross-contamination risks
- Significant investment and upkeep costs

Elevating your endoscopic expectations.

A complete stone management portfolio is now at your disposal.

Access: Wire Guides

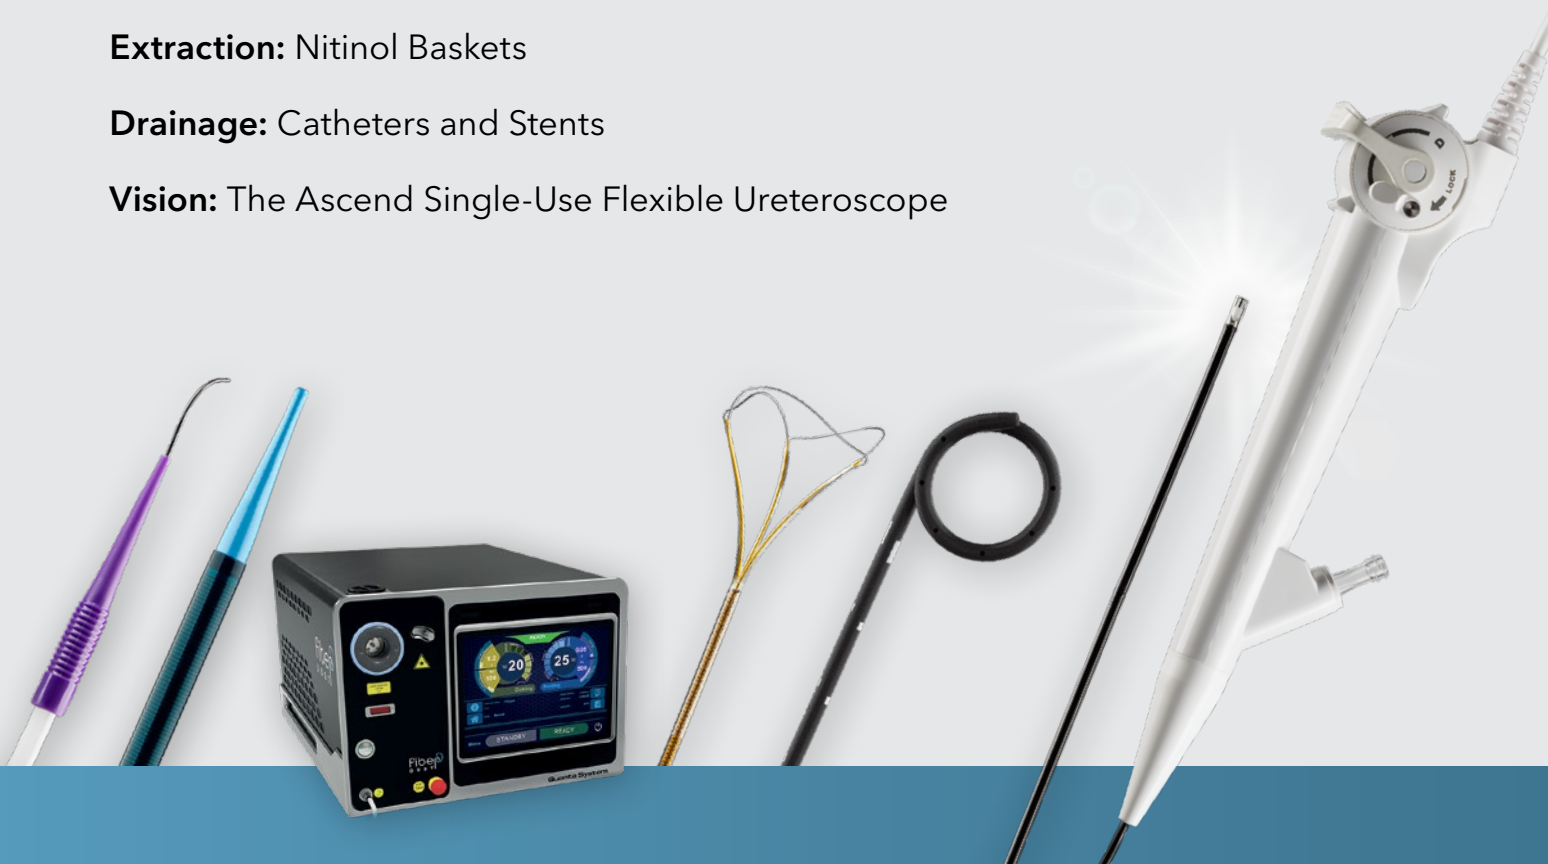

Dilation: Sheaths

Lithotripsy: Quanta Lasers

Extraction: Nitinol Baskets

Drainage: Catheters and Stents

Vision: The Ascend Single-Use Flexible Ureteroscope

Ascend™

SINGLE-USE FLEXIBLE URETEROSCOPE

Use the Ascend scope with endoscopic accessories such as laser fibers, stone extractors, biopsy forceps, and the Endoscopic Video Image Processor for endoscopy and endoscopic surgery within the urinary tract and interior of the ureter and kidney.

Ascend™ Single-Use Flexible Ureteroscope
