

Perform under pressure.

Ultraxx™  
NEPHROSTOMY BALLOON

# Ultraxx™

NEPHROSTOMY BALLOON

The Ultraxx Nephrostomy Balloon features a rated burst pressure of 20 atm and a functional dilating portion 15 cm long. This combination of high pressure and balloon length is designed to establish a nephrostomy tract.

Clear sheath

The set includes an Ultraxx balloon catheter, an access sheath, and the Cook Inflation Device.

## Features

---

Port grip      The grip provides control and aids handling during the inflation process.

---

Sheath lock      The lock holds the sheath in place and out of the way during dilation.

---

Dual inflation/  
deflation ports      The ports provide uniform pressure during inflation. When the balloon is deflated, the ports provide fluid evacuation for the removal process.

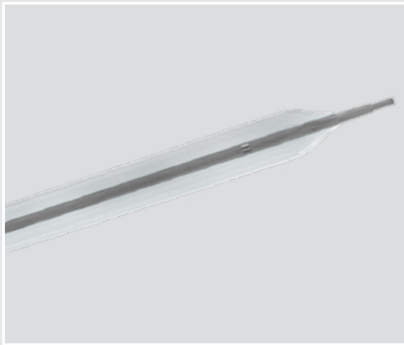

---

Platinum band      The band provides radiopacity to aid in balloon dilation positioning.

---

Tapered tip      The tip accommodates insertion and allows placement over a .038 inch diameter wire guide.

---

## Ultraxx™

NEPHROSTOMY BALLOON

The Ultraxx Nephrostomy Balloon is used to dilate the musculofascia, renal capsule, and parenchyma to establish and maintain a percutaneous nephrostomy tract. The set is available with a standard PTFE access sheath or a clear vinyl access sheath for visualisation.
